## EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

### *Examiner's Amendment*

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Paschall on August 25, 2004.

The application has been amended as follows:

Claims 1-11 have been canceled.

### *Reasons for Allowance*

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest determining the circulation rates of the spent catalyst and regenerated catalyst to the reaction zone, determining whether a relationship between the circulation rates meets a preset condition, and then signaling an adjusted setting to the recycled catalyst control valve if the relationship between the circulation rates does not meet the preset condition. The closest prior art to Gerhold does not disclose or suggest the measurement of catalyst circulation rates.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
